APPENDIX

MARKED UP VERSION SHOWING CHANGES TO THE CLAIMS:

1. (Amended) A recess within a wall of an expandable tubular, [the recess comprising at least one arcuate wall,] the recess serving as a housing for one or more of the following during expansion of the expandable tubular: control lines, instrumentation lines, fiber optics, and downhole sensors.

10. (Amended) The recess of claim 1 further comprising an encapsulation within said recess, the recess serving as a housing for one or more of the following: control lines, instrumentation lines, fiber optics, and downhole sensors, which reside within said encapsulation[, the encapsulation comprising:

a first arcuate wall having a first end and a second end; and
a second wall having a first end and a second end, said first and second ends of said first and second walls of said encapsulation being connected so as to define a housing between said first and second walls of said encapsulation].
